SUMMARY

Making a better web, easy to use, beautiful, and accessible to all, is what makes me fascinated.

EXPERIENCE

Complete ReactJS Course

Online 2021

After learning and studying from online courses and documentation, I have been built some interesting projects, not copy code.

- Facebook-clone project: with authentication, real-time activity, and update image, using firebase to store data. Design and thinking to build logical components
- Converse-clone project: functions like shopping cart, simple sorting, and animations
- Netflix-clone project: functional authentication of firebase, redux to handle login and logout, just basic things

Complete Javascript Course

Online 2021

Learning in deep the fundamentals, and how it works behind the scenes, using knowledge, design and build a logical website.

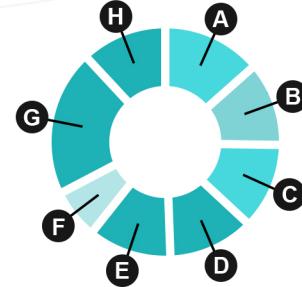

- LearningVocabulary website: logical functions with javascript, not responsive

Complete HTML & CSS Course

Online 2021

Completed online course, using knowledge and build some normal website.

- TeaRecipes website: managing multipath with HTML file, responsive
- Sport website: normal web using basic HTML & CSS, responsive
- Store website: normal web using basic HTMl & CSS, responsive

- Ⓐ Reading
- Ⓑ Socialising
- Ⓒ Activities
- Ⓓ Gaming
- Ⓔ Sports
- Ⓕ Relaxing
- Ⓖ Study
- Ⓗ Breath
